	<i>(Delete as appropriate)</i>						
Patient and Public Engagement:	Not applicable						
Clinical Engagement:	Not applicable						
Risk and Assurance:	Not applicable						

The time since the last Governing Body meeting has been focussed on working with the Governing Body, gaining assurance from the CCG executives and gaining insights from our neighbouring CCG Governing Bodies and other West Midlands NHS Chairs and Local Authority representatives. This work enables Coventry and Rugby CCG to be well placed to continue “business as usual”, to work towards clinical and financial targets and to be able to transform to meet the needs of the population.

I attended and co-facilitated a powerful session on dementia diagnosis at the STP Mental Health and Well-being Day on World Mental Health day and heard narratives of carers, volunteers, medical staff and relatives and gained insight into ways of improving people’s pathway through diagnosis. I am assured that we are making progress in relation to diagnosis of dementia.

The flu vaccination campaign is well underway and my primary care and community colleagues are working hard to deliver.

I have been able to see Rugby working strongly with a place based approach in its Integrated Community Partnership. It was with thanks to Dr Yadav and the wider team that the Rugby Primary Care PLT was a positive afternoon of information sharing and thinking about future working. Coventry GPs are continuing to strengthen cluster working and networking between clusters.
